
Title: Qadi Report

Author: Joseph Frostmore

Atticus Blacke

Atticus pulled me aside privately one day and told me of his true nature. He is claiming to be a lich who can shape shift into human and vampire form. He also says that he takes his orders directly from Oblivion itself. Atticus says Oblivion wants him to start the old Order again and to have Atticus head it. Atticus wants to meet privately with you and propose a place to the Tal'Mahe'Ra in the Order. He also said its an offer and a gift and that we arent nesecary. How very arrogant of him. So that is the purpose of why he wishes to meet with you. The last thing he said is something about the death riders i believe and that he is the last one. He claimed only three Vampires were allowed to be told all of this. You, I, and Rho. I can arrange a sit down between you if you wish, i see Atticus often.

Zynixis

If you didnt already know Zyn bore me two children. Zander the first born and Zadrianna the second. They are twins. She also set Zemora in a

basket and out to sea
but when she drifted
back she gave Zemora to
Drake for his
experiments. Zynixis is
also not feeling very well
due to the absence of
your Vitae and fears she
might die soon.

Pestilence

Leshrac gave Pestilence
an honorable death. This
was all on Pestilence
wishes of course. He
claimed Pestilence wanted
to rejoin his Bretheren
who were long dead and
felt he had no place here
in Sosaria anymore.
Therefore Leshrac laid
him to rest by way of
fire at the Well of
Souls. Leshrac now owns
Pestilences old castle. He
plans to make a spot in
it for our rituals and
activities of the sort.
